

Materials

Square paper
Treats!

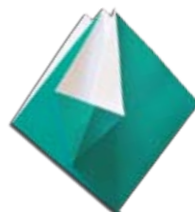

Steps

Make four folds across the paper.

Bring the top and bottom corners together and tuck in the other two sides.

With the opening at the top, fold one side along to the central fold.

Open up the flap and press it open.

Tuck the side of the flap under itself.

Now do the same to the other flap on that side, turn it over and repeat on the other side.

Fold the four flaps down as far as you can.

Pull the flaps open and push the bottom of the star box against a table, using your hand inside the box to make the shape.

Fill with treats or a present for someone!
