

Materials

Shaving Foam
Dyes or
Food Coloring
Paper

Steps

Shake the shaving foam well and squirt a layer into a dish.

Dribble dye or food coloring onto the shaving foam.

Gently stir the colours to mix them.

Lay a piece of paper on the foam and dye and gently press the paper so that most of it touches the foam.

Peel the paper off. Leave it to dry completely. This can take a few hours if it is very thick. Once it is dry brush off the shaving foam to reveal the print on the paper.
