

## Materials

Newspaper  
Paste or White  
Glue  
Cardboard

## Steps

Fill a bowl or bucket with torn bits of newspaper. Cover the paper with warm water and leave to soak for 24 hours.

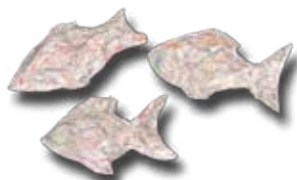

Pour off the water and slowly mix in wallpaper paste or white glue until the mixture feels like dough or soft clay. It is now ready to use.

To make a small shape like a fridge magnet or brooch, cut a shape out of cardboard.

Shape the pulp onto the cardboard.

Leave the shapes to dry. Depending how thick the pulp is, this can take a few days.

Paint a layer of white paint onto the shapes to make a plain background.

Finish with lots of bright paints and fun designs.
