

Cool new release from Polka Doodle!

Following the huge success of the original Paper Boutique template CD, Polka Doodles has now released a second volume for Christmas.

The CD includes 21 digital templates in A4, A5 and A6 format and also offers the Polka Doodles quick template system called Cut & Create. This creates pre-coloured designs which can be printed and cut, ready to layer, offering a choice of basic templates which can be used with user's own imagination, or a helping hand for beginners or crafters short of time.

In addition to the layering templates there is also a range of editable text sentiments and almost 100 backing co-ordinating backing papers, giving a total of over 500 printable pages, as well as digital "stamps" so these can be coloured by hand with a colouring system of choice.

The Christmas CD was launched on Create & Craft on 27th June, and has an RRP of £15.49 available from www.polkadoodles.co.uk and selected retailers. Watch out for lots more new exclusive Polka Doodles products being launched in July.
