

## Materials

Square Paper  
Scissors

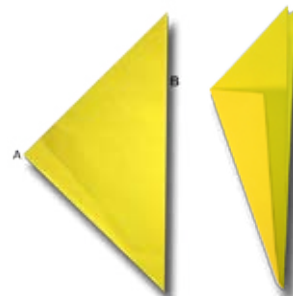

## Steps

Start with a square piece of paper  
Fold it into a triangle, and again, and again

With the longest side on the right  
and the corner that was the paper's  
center (the bit that is all joined up)  
at the bottom - fold point A  
over to the longest side, the point  
will end up at B.

Cut off the triangle bit at the top  
above the edge of the folded over  
paper.

Draw a half petal shape starting at  
the top corner of the triangle and  
ending on the long edge.

Cut along the outline but make sure  
you do not cut through all of the  
long edge of the triangle.

Then ease the flower open.

Layer up with some more folded  
flowers to make beautiful blooms.
